### REMARKS

Applicants and applicant's attorney express appreciation to the Examiner for the courtesies extended during the recent interview held on March 31, 2005. Reconsideration and allowance for the above-identified application are now respectfully requested. Claims 1-14 are pending, wherein claims 1, 11 and 12 have been amended in a manner consistent with the proposed amendments and matter discussed at the interview. Claims 15-22 have been withdrawn from consideration.

Each of the pending claims, as amended, provides for differentiating between each of the parsed semantic components and selecting a compression method, if any, to be used for each parsed semantic component, taking into consideration the specific attributes of each semantic component in selecting a compression method appropriate for that particular semantic component. Applicant respectfully submits that claims 1-14 are allowable over the prior art of record.

In the event that the Examiner finds any remaining impediment to a prompt allowance of this application that may be clarified through a telephone interview, the Examiner is requested to contact the undersigned attorney.
